PREFACE.

The present issue, comprising Volumes II. and III. of the Census results, contains the detailed tabulations of the statistical data obtained at the Census taken for the night between the 2nd and 3rd April, 1911. Summaries of the principal results have been published from time to time in Census Bulletins Nos. 1 to 17, which were issued as the requisite particulars became available. These bulletin results, in a revised form, are included in the present issue in Volume III., Part XIV. "Summary." Volume I., which comprises the Statistician's Report, and contains an historical sketch of Census taking, an account of the present Census, and a review and analysis of the results, is now in the hands of the printer, and will be issued shortly.

70.—NUMBER OF FULL-BLOODED ABORIGINAL MALES
Recorded at each age in each State and Territory of the Commonwealth at the Census of 3rd April, 1911.

NOTE.—The full-blooded Australian Aboriginals included in Tables 70, 71 and 72 represent only those who were in the employ of the whites at the date of the Census, or were living in a civilised or semi-civilised condition in the vicinity of settlements of whites at that date. An enumeration of Aboriginals living in a purely wild state was not undertaken. The most reliable estimates of the total full-blooded Aboriginal population of Australia placed the number somewhat under 100,000, but as the data available for any such estimate are very meagre, the results cannot be regarded as more than very rough approximations.
